

Charbel Serhal

charbelserhal824@gmail.com | +961 71 508 948 | Mar Roukoz St., Dekweneh, Beirut, Lebanon |

Cybersecurity and ICT graduate with hands-on experience in security operations, network administration, and IT infrastructure support. Experienced working with EDR and SIEM platforms, Cisco networking technologies, Linux systems, and penetration testing methodologies. Background includes supporting cybersecurity and technology operations within port-terminal environments, enterprise client engagements, and retail operations. Combines a strong technical foundation with a practical, solutions-oriented approach to problem solving. Passionate about information security, continuous learning, and contributing to resilient and secure environments with secure technology.

PROFESSIONAL EXPERIENCE

Cybersecurity Intern (SOC Analyst L1) | POTECH Consulting

March 2026 – June 2026

Defensive security operations & enterprise risk management

- Supported senior analysts in infrastructure security reviews and vulnerability scans for enterprise clients across the MENA region.
- Used SIEM and EDR technologies to monitor network traffic and identify Indicators of Compromise (IoCs) and anomalies.
- Participated in Digital Forensics and Incident Response (DFIR) simulations, artifact analysis, and threat-actor behaviour studies.
- Applied NIST and ISO 27001 frameworks to assist with organizational compliance and risk assessment procedures.
- Researched emerging threats and contributed to internal technical documentation and security awareness materials.

IT Security Intern | Solidere SAL

June 2025 – August 2025

Endpoint protection, auditing, and virtualization

- Worked with ESET Endpoint Security, Netwrix Auditor, Fortinet solutions, and Microsoft Hyper-V to support system protection, auditing, and virtualization.
- Strengthened practical understanding of how IT operations protect digital assets against modern threats while maintaining operational efficiency.
- Assembled and configured multiple workstations, including hardware buildouts from individual components.

Front-End Supervisor | Spinneys Tilal Ashrafieh

2023 - 2026

Front-End Supervisor (2025-2026) | Customer Service Agent (2024-2025) | Cashier (2023-2024)

- Promoted twice over three years; supervised front-end operations including cash flow, staff coordination, and customer experience.
- Built strong customer service, inventory management, stockkeeping, and goods-receiving experience in a high-volume retail setting.

SELECTED PROJECTS

- Aura - Agentic Hypermarket AI (Senior Project): AI-driven assistant designed to support hypermarket operations through natural-language interaction and intelligent task automation.
- Whatsit AI Research Paper Navigator: Tool for browsing, summarizing, and querying academic papers.
- LSAT - Linux System Administration Tool: Utility for streamlining common Linux admin tasks.
- Network Design (Packet Tracer): Designed and simulated an enterprise network topology.
- Database Management System (MySQL): Built a relational DB for a research project, including schema design and queries.
- Java/C++ Applications: Car rental agency (Java GUI), interactive dice game (XML + Java), casino-style games (C++).
- Rubik's Cube Pytimer (Python): Reliable timer application designed for timing Rubik's cube solving sessions.

SKILLS

Languages: Arabic (native); English (fluent); French (fluent).

Productivity: Microsoft Office (Word, Excel, PowerPoint, Access); Google Workspace.

Cyber Security: SIEM, EDR, Firewalls, Vulnerability Assessment, Penetration Testing, Network Traffic Analysis, Windows Forensics, Wireshark, Encryption, Intrusion Detection, NIST, ISO 27001.

Networking: TCP/IP, DNS, DHCP, VPN, OSI Model, Routing & Switching, Cisco Packet Tracer.

Programming & Databases: Python, Java, C, C++, Bash, Awk, SQL, HTML, CSS, JavaScript, TypeScript; MySQL, Oracle, PostgreSQL.

Tools & Platforms: ESET Endpoint Security, Netwrix Auditor, Fortinet, Microsoft Hyper-V, Flask, Git, Arduino (IoT).

Operating Systems: Windows, Linux, macOS, Android, iOS.

Others: Customer Service, Inventory Management, Team Coordination, Time Management.

CERTIFICATES

Microsoft AI Developer Track	2026
Potech SOC Analyst L1 Certificate	2026
Cisco CCNA 1, 2 & 3	2025
Hack The Box University CTF	2025
Solidere IT Internship Certification	2025
Customer Service Training - GMRL	2025
Cisco CCENT	2024
System Hardware Technician - Cisco	2024

EDUCATION

Bachelor of Science in Information and Communications Technology (ICT)	2022 - 2026
American University of Science and Technology (AUST) Beirut, Lebanon	
Relevant coursework: Cybersecurity, Network Security, Operating Systems, Data & Disaster Recovery, Database Systems, Web Programming, Mobile Computing.	
Life Science Program	2021
Modern Community School Beirut, Lebanon	

INTERESTS

Cybersecurity, Artificial Intelligence, Full-Stack Development, Networking, Penetration Testing, Technology.
